The goal of the Gold and Goal Soccer Camp is to provide a positive learning environment for all participants. A competitive but enjoyable atmosphere will be encouraged. The goal is for the players to receive an educational, positive, experience.

Grouping

This is often the first camp experience for our younger players, while our older players may have prior camp experience. Players will be grouped by age, ability, and team. The younger age groups will be designed to instruct boys and girls in individual skills, tactics, and fundamentals of team play.

In addition to skills and fundamentals a “games” approach to teaching individual technique will incorporate small group tactics to further develop each player in the older age groups, including middle school and high school age players.

Our program’s goal is to provide a great soccer experience for boys and girls where they can be with friends, meet new children, team build and have FUN while developing their soccer skills.

Age of Players

The camp is for boys and girls grades K-12. Prior experience is not necessary.
